

Turkey

SKU: NWBS-TURKEY

Recommended Tools:

- ☐ 9/16" Wrench
- ☐ Adjustable Wrench

Step 1:

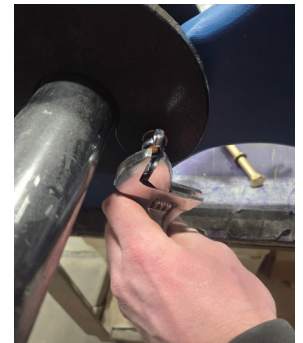

The **3/8" Hex Screw** ships pre-assembled with two **3/8" Washers** and a **3/8" Wing Nut**. Remove the Washers and Wing Nut from the Hex Screw.

Step 2:

Set the Turkey upside down on the pipe so the fixed bearing half sits directly on top of the pipe. Rotate the loose bearing half until the pre-drilled holes line up.

Step 3:

Slide the **Hex Screw** with one **Washer** through the bearing. Place the second Washer on the opposite side and thread on the **Wing Nut**. Hold the Hex Screw in place with a **9/16" Wrench** and tighten the Wing Nut with an **Adjustable Wrench**.

Part Number	Part Description	Quantity
CUSTOM	Turkey	1
91257A640	3/8" x 4" Hex Screw	1
95229A490	3/8" Washer	2
